## Armstrong Ceilings Expands WoodWorks® Grille Options with Addition of Nine New Configurations

*New introductions feature wide variety of new slat depths and widths  
to provide greater design flexibility*

**LANCASTER, PA** — To provide greater flexibility in the design of ceilings with a linear look, Armstrong® Ceiling & Wall Systems has greatly expanded its portfolio of WoodWorks® Grille products with the addition of nine new configurations featuring a wide range of new slat depths and widths.

With the introduction of the new options, the WoodWorks Grille line of standard products now includes three slat widths ( $\frac{5}{8}$ ", 1", and 1 $\frac{1}{4}$ "), five slat depths (1 $\frac{3}{8}$ ", 2 $\frac{1}{4}$ ", 3 $\frac{1}{4}$ ", 4 $\frac{1}{4}$ ", and 5 $\frac{1}{4}$ "), and five slat patterns (3, 4, 5, 6, or 8 slats per panel). In addition to the standard options, custom slat widths, depths, and configurations are also available.

Depending on the size of the panel, WoodWorks Grille panels are available as backer, dowel, or new backer and dowel combination

panels. In terms of finishes, all panels are offered in Grille Maple, Grille Light Cherry, Grille Dark Cherry, Grille Walnut, and new Grille White. Custom finishes are available as well.

### **Economic Alternative to Custom Millwork**

An economic alternative to custom millwork, WoodWorks Grille panels install easily on the ceiling, on a wall, or as 90° angled or faceted ceiling-to-wall transitions. A custom curved application with flexible backer is also available.

Acoustically, WoodWorks Grille panels have a Noise Reduction Coefficient (NRC) of 0.75 when installed with a BioAcoustic™ infill panel. In addition, all panels are engineered, tested, and approved for use in all seismic areas.

For additional information on the new WoodWorks Grille additions, visit [armstrong.com/grille](http://armstrong.com/grille).

Armstrong World Industries is a global leader in the design and manufacture of ceilings and floors. In 2014, Armstrong consolidated net sales from continuing operations totaled approximately \$2.5 billion. Based in Lancaster, PA, Armstrong operates 31 plants in eight countries and has approximately 7,400 employees worldwide.
