## **Architectural Components Group (ACGI) Is Now Part of Armstrong Ceiling & Wall Solutions**

*Custom wood capabilities enhance and expand WoodWorks® portfolio*

LANCASTER, Pa. — With the acquisition of Architectural Components Group, Inc. (ACGI), Armstrong Ceiling & Wall Solutions is giving architects and designers an opportunity to take their custom wood designs to a whole new level.

An industry leader in custom wood ceilings and walls, ACGI custom wood capabilities enhance and expand the Armstrong® WoodWorks® portfolio of ceiling and wall solutions offering more shapes, forms, and finishes than ever. From microperforated wood panels with excellent acoustical performance to a myriad of innovative interior and exterior ceiling and wall solutions, ACGI capabilities make it easier to bring custom wood designs to life.

### **Microperforated Wood Ceiling and Wall Panels**

New capabilities include microperforated wood ceiling and wall panels that blend the beauty of a non-perforated wood visual with excellent acoustical performance. The panels appear non-perforated from a normal viewing distance but have 0.55 mm perforations to help control noise.

ACGI capabilities also enable architects and designers to specify any commercially-available solid wood veneer and create or coordinate any color to meet project requirements.

## Exterior Capabilities

Exterior capabilities integrate interiors and exteriors with wood-based composite panels that are available in almost any commercially-available wood species, making them universally appealing.

“Now Armstrong has even more opportunity to bring custom wood designs to life for our customers while achieving both aesthetic and acoustical benefits,” says Nicholas Taraborelli, Vice-President, Commercial Marketing, Armstrong World Industries. “With ACGI capabilities, we can integrate ceiling and wall systems as well as interior and exterior visuals in a variety of custom wood species and finishes.”

To learn more about ACGI’s custom wood capabilities, visit [armstrongceilings.com/acgi](http://armstrongceilings.com/acgi). There you can view a colorful, 56-page brochure that illustrates the variety of custom design capabilities ACGI brings to the Armstrong WoodWorks product portfolio.

For information about how the design experts at the Armstrong You Inspire™ Solutions Center can bring these custom wood capabilities to life, visit [armstrongceilings.com/youinspire](http://armstrongceilings.com/youinspire), call 1-800-988-2585, or email [solutionscenter@armstrongceilings.com](mailto:solutionscenter@armstrongceilings.com).
