## **New Infusions™ Resilient Partitions from Armstrong Offer Quick Retrofit Solution for Spaces Requiring Social Distancing**

*Translucent wall partitions transform shared spaces  
into protected, segmented zones*

LANCASTER, Pa. – With the introduction of new Infusions™ Resilient Partitions, Armstrong Ceiling & Wall Solutions is offering a quick retrofit solution for spaces that require social distancing.

The non-porous and easily cleanable translucent wall partitions can transform existing shared spaces into protected and segmented zones, creating healthier, safer spaces for people returning to work, school, and other indoor environments in the wake of COVID-19.

Placing physical barriers is among the recommendations in the American Institute of Architects (AIA) "Reopening America: Strategies for Safer Buildings" initiative.

## A Design-Oriented Approach

Unlike plain plexiglass sheets, [Infusions Resilient Partitions](#) provide a design-oriented approach to creating greater separation between people. Artfully designed in a variety of colors and patterns, the large format, standard 24" x 96" vertical wall panels are easy to install and can be suspended from ceilings or attached to walls. With some colors ready to ship in one week, existing layouts can be quickly reconfigured to accommodate changing social distancing requirements.

Made from PETG, Infusions Resilient Partitions feature a long-lasting designer finish that other dividers and partitions do not provide. Panels and installation hardware are packaged in one complete kit and panels can be field cut to accommodate the needs of the space.

Infusions Resilient Partitions are part of the enhanced portfolio of ceiling and wall products Armstrong offers to meet the need for healthier and safer spaces. The portfolio also includes custom metal and acrylic dividers from Móz Designs, and Wrap and Solo Screens from Turf Design.

For more information about Infusions Resilient Partitions, visit [armstrongceilings.com/partitions](https://armstrongceilings.com/partitions). To learn more about the other ceiling and wall solutions Armstrong offers for healthier spaces, visit [armstrongceilings.com/healthyspaces](https://armstrongceilings.com/healthyspaces). Chat live or reach a U.S.-based Armstrong TechLine expert at 877-276-7876, Option #2.
