Armstrong® Introduces 44 Additional Ceiling Panel Designs to the CastWorks™ Metaphors® Portfolio

Select options for GRG panels further expand the Armstrong wood-look possibilities

LANCASTER, Pa. — Armstrong® World Industries has introduced 44 additional panel designs to its portfolio of CastWorks™ Metaphors® Glass-Fiber Reinforced Gypsum (GRG) ceiling panels. In addition, Armstrong has added two new wood-look finishes, expanding its portfolio of wood and wood-look options across a wide variety of materials.

Available as a quoted option, the versatile 24" x 24" modular GRG panels feature dimensional and coffered designs that can create many unique looks based on layout. Each panel is one solid piece, with high-end custom looks achievable through standard installation on a Prelude® XL® 15/16" suspension system.

New Wood-Look Finishes on Select Panels

The new CastWorks Metaphors quoted ceiling panels are available in four standard colors—White, Silver Grey, Gun Metal Grey, and Black—that coordinate with Armstrong grid colors. Custom colors are also available. Select panel designs are offered in two new wood-look finishes, Walnut and White Oak. All the finishes on the new panel designs, except for Gun Metal Grey, are part of the Armstrong® Sustain® portfolio and meet the most stringent industry sustainability compliance standards today.

"The wood-look panels will either have a smooth finish or a finish with an inherent wood grain texture, depending upon the design specified," explained Keith Koger, Director, Specialty Solutions, at Armstrong. "Moreover, the new offering also includes panels to field-cut for MEP integration and perimeter solutions."

The new quoted panel designs are available through ASQuote@armstrongceilings.com. They are also available through [OneQuote](#), a self-service tool that enables customers to obtain their own quotes.

The CastWorks Metaphors product portfolio also includes a collection of standard 24" x 24" tegular ceiling panels in five modern designs: Botanical, Pinnacle, Crests, Tectonic, and Tidal. Four standard colors—White, Silver Grey, Gun Metal Grey, and Black—are available.
